4. **Venue:**, Bharati Vidyapeeth’s Institute of Management & Research
5. **Participants:** Corporates, Research Scholars, Academicians and Students.

Inaugural Session

For all those who were thinking that IC 2018 would be a great success... well it indeed marked up to their expectations. Despite of the cold winds flowing from the north with the aim to reach till the bones, the auditorium got filled up to its neck with research scholars, Academicians, Corporate dignitaries and Foreign students came across from other parts of the World. The Inaugural session marked its commencement with the warm welcome by student anchors enriching the audience about the Institute and University followed by lightning of lamp symbolizing gratitude to almighty before commencing great cause. The event took its way forward where Director-BVIMR felicitated Chief Guest of the Conference-H E Alem Tsahye, Woldermariam, Ambassador-Eriteria along with H E K. L. Ganju, Union of the Comors, Secretary General, Dr. Professor Rattan Sharma,Principal Director-VIPS and Board member of AIMS, Mr. Subodh Agarwal Head state E-Governance division,GNCTD and Mr. Presido Okuguni, Afircan Association of students in India. Its time to strengthen the binding of conference through opening message by Dr.Shallu Singh-Convener where she threw light on the theme of the conference and journey of the same from scratch till now. Adhering to protocol the dias was graced with presecence with Director address who welcomed the audience across all states and different campus where audience was connected also through live telecast.

The honorable director Dr. Vikas Nath then spoke about digitization & the journey of BVIMR towards a digitized Institute, engraving the concept of Gigital Disruption and its evolution from 1995 to 2015. The students got thrilled when Mr. H.E. Alem Tsahye gave introduction about his country & Africa. The way he spoke about digitization & e-governance proved to be highly informative. E-governance or electronic governance is the application of information & communication technology for delivering government services as was then told by Shri K.L. Ganju. Further the light was thrown on e-business & its applications by Mr. Presido. He also made students aware about the advantages & disadvantages of doing business electronically. For all the inquisitive ones who had their doubts about the theme of International Conference “Empowering to create smart future through E-governance & Digitization”, Professor Ratan Sharma literally dissected it, focusing on every word & doubting on the latent meaning of it. “Empowering the citizens to create smart future of India via the application of technology” was the conclusion he got

after dissection. He was everything but subtle. As intellectual as Professor Ratan Sharma, Professor Subodh Aggarwal took over the mic & gave students an insight on digital locker & how the students can use it to keep their certificates safe. The inaugural session ended with the vote of thanks by Dr. Anjali Sharma to students, guests, director & university.

A summarized elocution of paper presented in Technical session I.

It is an equilibrium between external environment and personal behavior. The relevance of study lies in sourcing in organization, learning and development and organizational leadership. According to the reliability analysis, all the constraints were reliable. One of the finding is males and females differ significantly on social intelligence. This study was done on PGDM students.

The study was on relation between the both and the law implemented on both. In recent years' corporate governance has become a primary focus and matter of concern for the corporation, the main focus of this paper was on Indian corporate regulatory frameworks. Digitalization is the process of converting analog information into digital bits. Study was done on aspects like shareholders' engagement, shareholders information, e-voting information technology committee, stock exchange compliances. Challenges of digitalization transformation are cyber security and cyber-attacks.

Its factors are digital infrastructure, dynamic financial market and digital products. Traditional model focuses on sourcing, channels rather than the processes and capabilities. Borrowers perspective towards digitalization- fast, simple, transparency etc. three primary value enablers within the digitalization model-

- Borrower tie up
- Third party vendors
- Digitalization in back office

Challenges of mortgage digitalization-

- Cost of technology
- Organizational changes
- High data security

It is the application of information technology of both networking and supporting. Realization of perfect efficiency and effectiveness depends on the implementation of system. E-HRM in the hotel business is very important as it helps in many organizations to achieve 100% efficiency. Importance of study- Integration between electronic management and human resources various role in improving the performance of hotels. Objective of study- What is the effect of contents of electronic management. Normality of each item was assessed using standard deviation, skewness and kurtosis. Data was normally distributed and significantly correct. Conclusion of study- there is significant interrelationship between satisfaction of the E-HRM system and tenure.

Corporate engagement is repeated interaction that strengthens a consumer's emotional, psychological or physical investment in a brand. It is a process of developing and nurturing investments. The objective of study is to identify factors influencing consumer engagement. Path analysis helps in proving the hypothesis. Conclusion is that all the factors influence the consumer engagement as the study proves it institution to conduct financial activity in foreign markets.

Dr. Parul Agrawal-Dean Academics, BVIMR felicitating Technical Chairperson Dr. N. K. Kakkar, Former Director General of Maharaja Agrasen Institute Of Management Studies.
